

# Diggin' Moto

## SETTING UP DIGGIN' MOTO

1. Turn off the power switch.
2. Turn the battery cover knob to open compartment.
3. Connect the battery wire to the Diggin' Moto's connector as shown on the diagram.
4. Close the battery compartment and switch the power switch to On.

## SETTING UP THE REMOTE CONTROL

1. Turn the battery cover knob to open the compartment.
2. Install 3x new AA batteries taking care to match the correct polarity (+/-).
3. Close the cover and turn the cover knob to lock the cover in place.

## CHARGING THE DIGGIN' MOTO'S BATTERY

1. Remove the battery from the robot as shown in the robot setting up instructions.
  2. Connect the robot battery to the USB charging cord connector.
  3. Plug the USB cord into a 5v1a USB charger.
  4. The charger light will turn on to indicate charging. When the charger light goes out charging is complete and you can reinstall the battery in the robot.
- ★Tip. Full charge takes approx. 1hr

## OPERATING DIGGIN' MOTO

- For best results the truck needs to be within a 15' foot range of the controller.
- For effective voice commands make sure you are within 12 inches of the controller command speaker.
- If left unattended the truck will go into power saving mode after 5 minutes. To wake, press any button on the controller.
- If the sound becomes intermittent this indicates low battery. Please follow the battery charging instructions to recharge.
