

ASSEMBLING YOUR GLOWSTRIKER

1. Insert pedestals into the Glowstriker and load the orbs.
2. Insert 4x “C” batteries into the Glowstriker.
3. Attach dart clip to blaster

USING YOUR GLOWSTRIKER

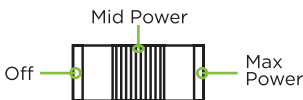

1. Load your Glowstriker with the glow-in-the-dark orbs.
2. Turn the Glowstriker power to Mid. The orbs will begin to hover.
3. Pull back on your blaster’s slide and load with a foam dart.
4. Take aim at the orbs and fire!

Tip. For lights out play, make sure to grab a handy flashlight and charge all the green components. Glow-in-the-dark green needs to be charged with light before it magically glows!

POWER SWITCH

Adjust power switch from Mid to Max to change the game difficulty by making the orbs float at different heights.

MUSIC SWITCH

Use the music switch to play the soundtrack or switch to silent mode.
